

OVERVIEW SETTINGS

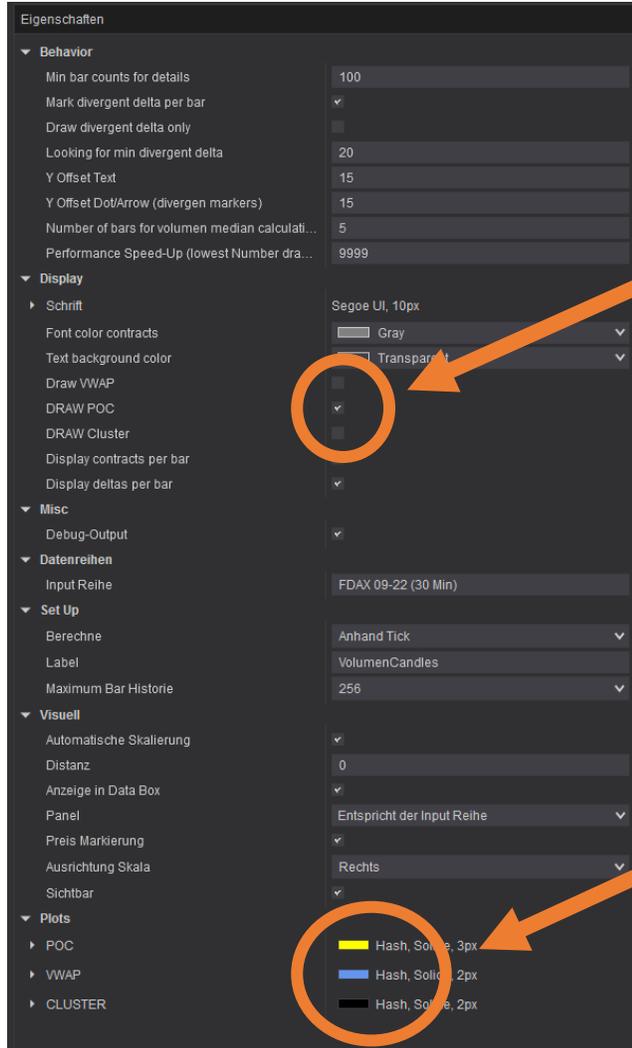

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – What information do you want to see?

1.

2.

1. Choose the points of candle that you want to see

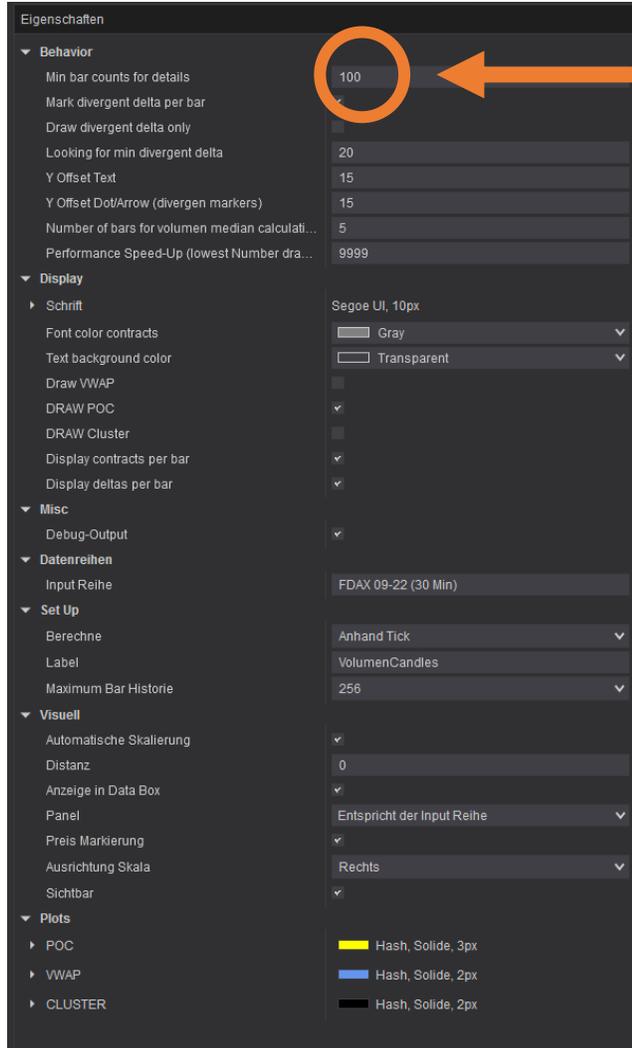

- POC (**Point of Control**) for the most traded price in the candle
- VWAP **Volume-weighted average price** of the candle
- Cluster (Footprint cluster) area with the most active market order of the candle

2. Change to your favorite colors and shapes for POC, VWAP, CLUSTER

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – ZOOMING of details

1.

Eigenschaften

- ▼ Behavior
 - Min bar counts for details: 100
 - Mark divergent delta per bar
 - Draw divergent delta only
 - Looking for min divergent delta: 20
 - Y Offset Text: 15
 - Y Offset Dot/Arrow (divergen markers): 15
 - Number of bars for volumen median calculati...: 5
 - Performance Speed-Up (lowest Number dra...: 9999
- ▼ Display
 - Schrift: Segoe UI, 10px
 - Font color contracts: Gray
 - Text background color: Transparent
 - Draw VWAP
 - DRAW POC
 - DRAW Cluster
 - Display contracts per bar
 - Display deltas per bar
- ▼ Misc
 - Debug-Output
- ▼ Datenreihen
 - Input Reihe: FDAX 09-22 (30 Min)
- ▼ Set Up
 - Berechne: Anhand Tick
 - Label: VolumenCandles
 - Maximum Bar Historie: 256
- ▼ Visuell
 - Automatische Skalierung
 - Distanz: 0
 - Anzeige in Data Box
 - Panel: Entspricht der Input Reihe
 - Preis Markierung
 - Ausrichtung Skala: Rechts
 - Sichtbar
- ▼ Plots
 - POC: Hash, Solide, 3px
 - VWAP: Hash, Solide, 2px
 - CLUSTER: Hash, Solide, 2px

1. Maximum of candles into the current chart that see details of footprint values below and above each candles

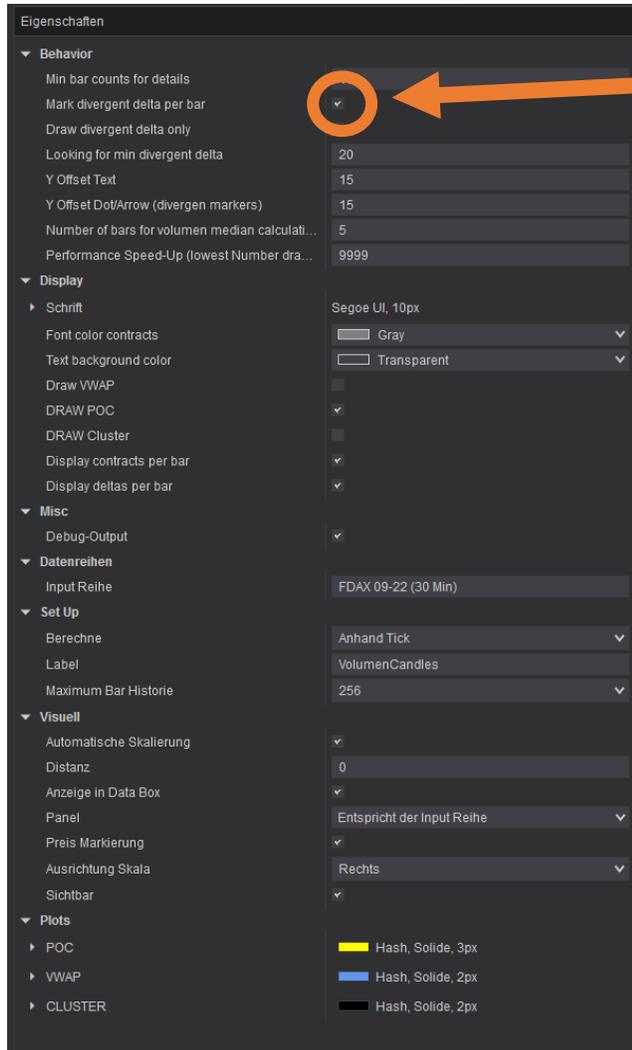

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – Markt delta divergents

2.

2. Mark divergent Footprint DELTA above or below candles

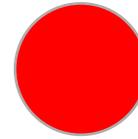

Eigenschaften

- Behavior**
 - Min bar counts for details
 - Mark divergent delta per bar
 - Draw divergent delta only
 - Looking for min divergent delta: 20
 - Y Offset Text: 15
 - Y Offset Dot/Arrow (divergen markers): 15
 - Number of bars for volumen median calculati...: 5
 - Performance Speed-Up (lowest Number dra...: 9999

 - Panel: Entspricht der Input Reihe
 - Preis Markierung
 - Ausrichtung Skala: Rechts
 - Sichtbar
- Plots**
 - POC: Hash, Solide, 3px
 - VWAP: Hash, Solide, 2px
 - CLUSTER: Hash, Solide, 2px

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – What the markers mean?

PRESSURE FROM THE SELLER

More „active“ sellers in this candle with a positive delta but a negativ candle.

PRESSURE FROM THE BUYER

More „active“ buyer in this candle with a negative delta but a positive candle.

VOLUMEN CANDLE INDICATOR

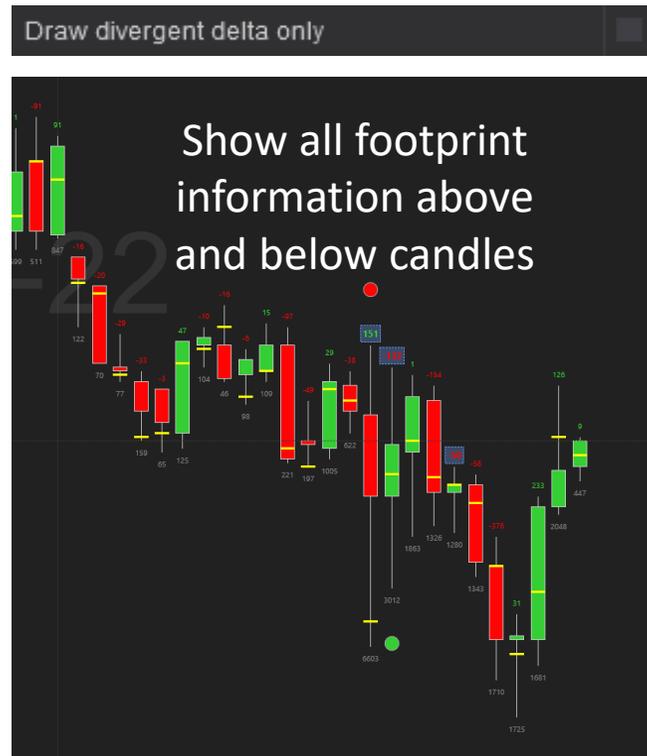

Standard Settings and optimization – ZOOMING of details

3.

3. Draw only delta divergent information above and below candles

Eigenschaften

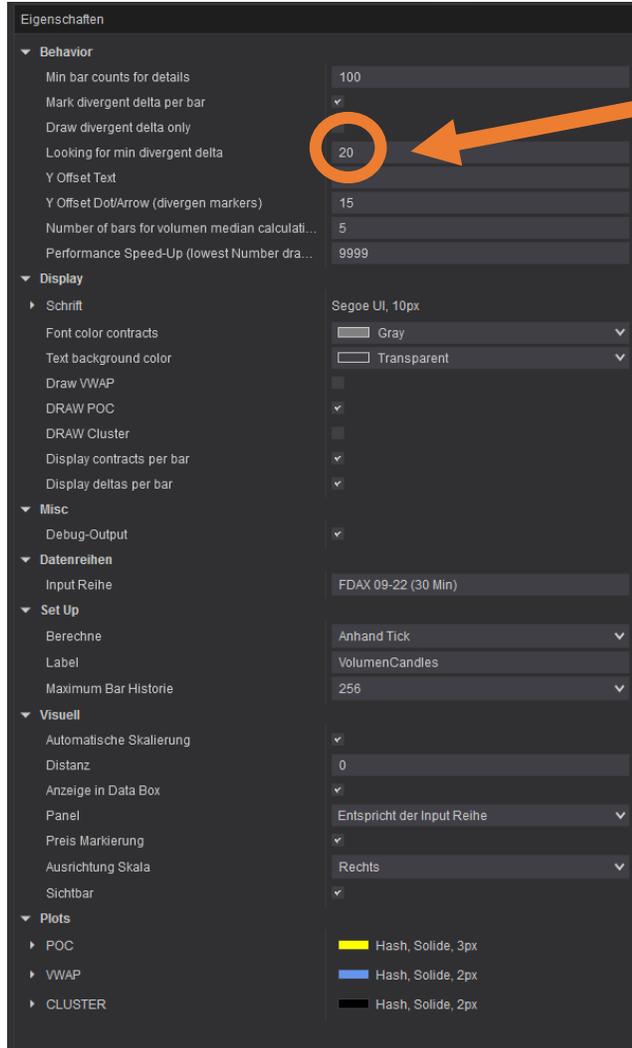

- ▼ Behavior
 - Min bar counts for details: 100
 - Mark divergent delta per bar:
 - Draw divergent delta only:
 - Looking for min divergent delta: 20
 - Y Offset Text: 15

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – Delta divergent value setting

4.

4. What delta divergent value is important for you?

Depending on the market and the time unit, these values may vary. Look at the individual delta values in a particular market and the time unit under consideration.

Take the value that shows a high average reaction and set it.

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – Text and marker positioning

5.

5. Behavior of text and markers positions above and below the candles

Eigenschaften

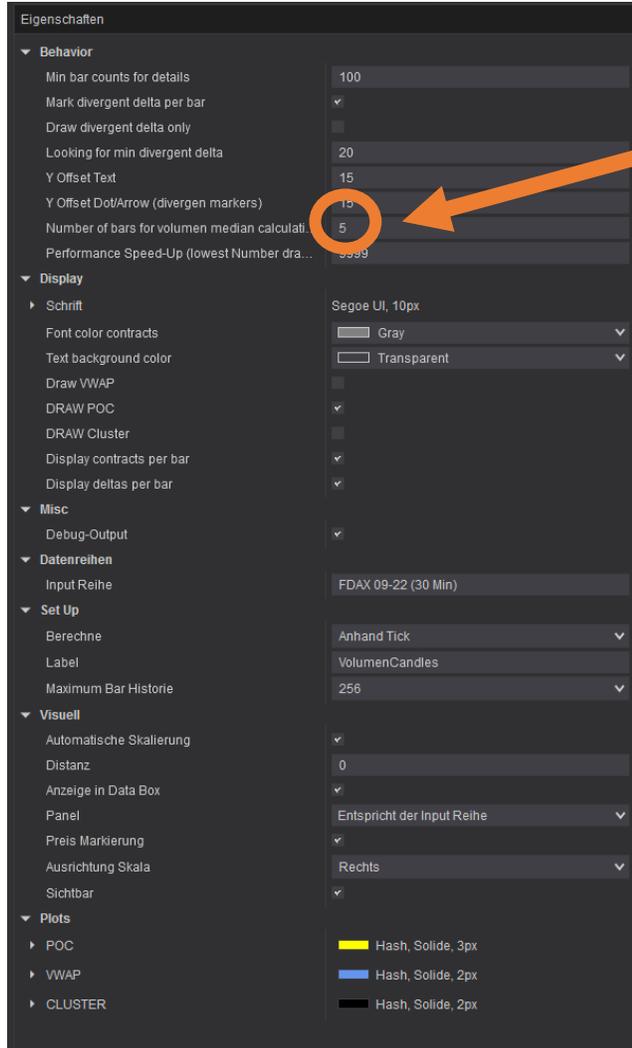

- ▼ Behavior

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – ZOOMING of details

6.

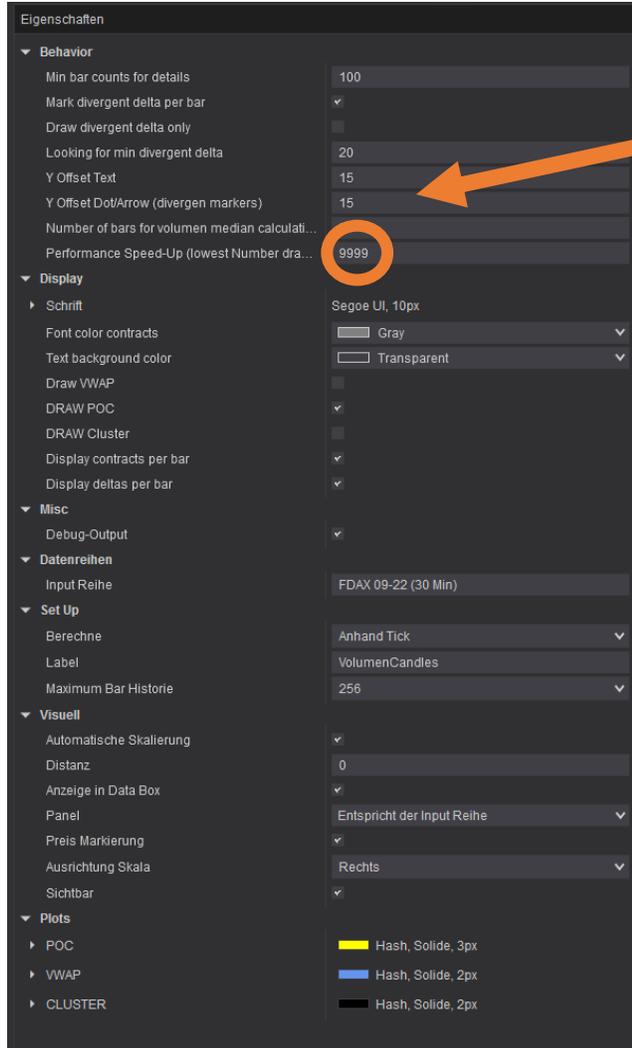

6. Mark delta divergent when volume is relevant to x-candles before

Delta divergent is important, if volume is relevant.

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – ZOOMING of details

7.

7. Lookup Candles for delta and footprint information

This setting is important for weak hardware. Set the value of 50 – 150 candles that load for datas.

Or set the maximum of candles for example 9999 or higher, if you have a massive hardware that can load a huge of datas.

VOLUMEN CANDLE INDICATOR

Standard Settings and optimization – Turn on/off in chart

Turn on/off
